

UNIVERSITY OF THE WITWATERSRAND, JOHANNESBURG

FACULTY OF SCIENCE

School of Computer Science and Applied Mathematics

LECTURER (NUMERICAL ANALYSIS)

Description: The School of Computer Science and Applied Mathematics undertakes high-quality research in a wide variety of areas and is home to several NRF rated scientists. In the domain of Applied Mathematics the School's main research areas include symmetry methods of differential equations, mathematical modelling, control theory, optimization, numerical analysis and fluid mechanics. Furthermore, research areas are in mathematics of finance, which include but not limited to portfolio optimization, risk management, risk measurement, stochastic processes in finance and interested rate modelling. We seek applicants with some research and teaching experience in the area of numerical analysis or computational techniques.

Qualifications:

Applicants must hold a doctorate in numerical analysis and have some teaching experience at a tertiary institution. Furthermore, the incumbent must show a potential of research and some publications in recognised journal and or scholarly books. The South African National Research Foundation rating is advantageous (if available).

Duties: The successful applicant will be expected to teach numerical analysis at undergraduate and postgraduate levels, supervise and/or co-supervise postgraduate students, participate in academic administration and develop a productive research programme.

Applications: Submit a covering letter accompanied by a detailed updated *curriculum vitae*, NRF rating (if available), description of research interests, a teaching portfolio, certified copies of all educational qualifications and identity document , and names and e-mail addresses of three referees.

To apply: External applicants are invited to apply by registering their profile on the Wits i-Recruitment platform located at <https://irec.wits.ac.za> and submitting applications. Internal employees are invited to apply directly on Oracle by following the path: iWits /Self Service application/"Apply for a job".

Correspondence will be entered into with short-listed candidates only. Short-listed applicants must be available for a personal or telephonic/Skype interview, and the presentation of a short seminar on the proposed line of research may be required.

Closing date: 15 September 2019

WITS
UNIVERSITY

“The University is committed to employment equity. Preference may be given, to appointable applicants from the underrepresented designated groups in terms of the relevant employment equity plans and policies of the university. The University retains the right not to make an appointment and to verify all information provided by candidates”
