

NWU-PUK Mathematics Workshop 2014: 3 – 5 September 2014

Theme: Modelling in Mathematics: Bio-Mathematics, Financial Mathematics and Transport Modelling

First Announcement: We are pleased to announce our second annual workshops in Mathematics/Applied Mathematics to be held at the Potchefstroom campus of NWU. The theme for 2014 is Bio-Mathematics, Financial Mathematics and Transport Modelling. The intention is to have a program with various talks on the above topics, with reasonably free time in the hopes of stimulating fruitful research discussions between the participants.

Speakers who have already indicated their intention of participating include:

Jaap Molenaar: Bio-Mathematics (Wageningen UR, The Netherlands)

Rachid Ouifki: Bio-Mathematics (University of Stellenbosch – SACEMA)

Coen Labuschagne: Financial Mathematics (WITS)

Freek Lombard: Financial Mathematics (NWU Potchefstroom)

Raimo Harden: Financial Mathematics (Bauhaus-Universität Weimar, Germany)

Nic van Rensburg: Modelling (University of Pretoria)

Further details (including information on accommodation) will follow in due course. More information and registration procedures can be found at <http://www.nwu.ac.za/content/math-workshop-2014/home>

Sincerely,

Ilse Schoeman (ilse.schoeman@nwu.ac.za)

Dawie Janse van Rensburg (dawie.jansevanrensburg@nwu.ac.za)

Sicelo Gogo (sicelo.gogo@nwu.ac.za)
